CEMAT
CENTRE D'ETUDES
MAGHREBINES A TUNIS

The Center for Maghrib Studies in Tunis Presents:

“CLIMATE CHANGE AND AGRICULTURE IN TUNISIA: CASE STUDY FROM THE CAP BON.”

LECTURE BY MS. CAROLINE
BOULES

Caroline Boules is a doctoral candidate in the Environmental Science and Policy Department at George Mason University in Washington D.C. Her work addresses the ways in which farmers adapt to climate changes and environmental stresses, and the role of the public sector and local institutions in adaptation. Her dissertation research focuses on these issues specifically in the Korba region of the Cap Bon peninsula. She has been living in Tunisia for the past 7 months, conducting fieldwork for her doctoral research.

[THE EVENT WILL TAKE PLACE AT CEMAT ON MONDAY
MAY 12TH, 2014 AT 16:00. A LIGHT RECEPTION WILL
